Company

This six level, 1,200 car parking facility at Britannia Oyster Point was constructed in two sections, divided vertically with each level per section poured on a two-week cycle. The cast-in-place post-tensioned facility features many amenities, including management and security offices, a central hub for Britannia Oyster Point PacBell phone and data service, electric vehicle charging stations, bicycle racks, storage areas and a security system featuring closed-circuit cameras and an emergency call station/blue-light system.
